**They were a family of four before the
twins were born.**

Mimi and Papa found matching bassinets for Mommy while they were throwing their paper route.

Papa and Aunt Jenny brought the dresser up to Mommy before heading to the airport.

Kyan had fun climbing on it!

Olivia was going to be born first, but then she turned around and decided to be born breech.

**Kyan didn't want anything to do with the new babies
when they came.**
